Demo Seating Feud Fizzles; Orderly Conventions Held

It took Randall County Democrats less than one hour Saturday evening to hold County Convention. . . elect delegates, pass resolutions and re-affirm faith in the program set forth by Gov. John B. Connally. They met in the Canyon High School Auditorium.

Republicans took a bit longer and passed 13 resolutions in addition to election of delegates to state convention as they convened Saturday at the Olympic Theatre.

An anticipated fued over seating of delegates from Precinct 19 fizzled out as the credentials committee, headed by A.W. Lair, ruled that a delegation led by Mrs. J.A. Watson had not left the precinct meeting prior to adjournment. Therefore, a rump session held by Mrs. Watson and 10 voters from that precinct was not legitimate and delegates elected at this session could not be seated.

Representing Precinct 19 was a two-member delegation headed by Jerry D. Thomas.

Serving on the credentials committee with Lair were W. B. "Battle" Harris and Jerry Hays.

Avery Rush of Amarillo was named permanent chairman of the Democratic convention with J. D. Webster serving as permanent secretary.

The following committees were appointed by Rush: credentials, nominations, resolutions and order of business.

Serving on the credentials committee were Milton Morris, chairman; Lon Watson and Carroll Brown. Composing the nominations committee were K. Bert Watson, chairman, Gene McGlasson and Bill J. Montgomery. The resolutions committee was headed by Hosea Foster with Dwaine Mires and

ORIGINAL PHOTOGRAPHS of cattle from a by-gone era were recently donated to LaCasa Canyon Convalescent Home by T.C. Thompson, a long time resident and early founder of Canyon. Admiring the photos with Thompson are Miss Sherry Kirkman, left, and Mrs. Helen Smith.

Pictures Donated To Home

Cattle pictures from a by-gone era were donated recently to LaCasa Canyon Convalescent Home by a resident of the home, T. C. Thompson.

Thompson, a long time resident and early founder of Canyon, donated the four pictures of old time cattle which were taken in 1916 by a "man who came through here with a panorama camera on a tripod".

Early day pictures among the collection are a herd of 3100 cattle on the C. T. Word "Frying Pan Ranch" which is still in existence northwest of Amarillo and the C. O. Kiser herd which was headquartered where the new First National Bank Building is being built, 1400 Fourth Avenue.

The pictures were presented to the Home because of the age of it's residents who will remember the many activities of the era according to Thompson. The pictures have value for "historical and sentimental" reasons and are framed in the original frames.

Canyon Baseballers Close Season 2-9

Boosted by a five run third inning, the upstart Canyon Eagles ended their season on a happy note, upsetting the Hereford Whitefaces 9-7 Tuesday.

Canyon's win tossed the District 1-AAA diamond race into a tie between rivals Dumas and Hereford. The two teams clash head-on in Hereford today, with the district championship riding on the outcome.

The Eagles, who had gone down to defeat three times before to Hereford, refused to play patsy to anone Tuesday, as they exploded with timely hits and alert base-running to defeat the Whitefaces. Canyon entered the contest without a district victory, but with the win in their final game of the season, the Eagles can mark a win up on a fine performance.

Hereford rallied desperately for three runs in the sixth inning, but they were far from enough to catch the Eagles.

The Eagles concluded the season with a 2-9 mark, winning a non-conference contest with Nazareth. Canyon dropped four games to Dumas and three to Hereford in district action.

Canyon totaled seven hits and committed three errors in their final battle, while Hereford miscued on six occasions and hit for nine base raps.

Peace. . .

(Continued from Page 1)

Woodward and McMahon are in the process of visiting the top 69 U. S. universities and colleges selected as the focus of this recruiting effort because of the number of Volunteers they have produced in the past. They have completed visits to the University of Texas, University of Houston and the University of Oklahoma prior to coming to West Texas State.

According to Charles Overholt of Peace Corps Public Information, the accelerated program for Micronesia calls for:

--A first contingent of several hundred volunteers to begin Peace Corps training in July in Hawaii and arrive in Micronesia by October.

--A second group to begin training in October, also in Hawaii, arriving in Micronesia in January, 1967.

A total of 600 volunteers are needed by October.

Responding to the urgency of the Micronesian program the Peace Corps has created a new, simplified application procedure. It includes a special shortened application form which concentrates on skills needed specifically for Micronesia. In addition:

--No Peace Corps Placement Tests will be required.

--All applicants will be notified by telephone of acceptance or refusal within 15 days.

Micronesia, site of some of the bitterest fighting of World War II, will be host to Peace Corps programs that have been called "the ideal antidote to the ravages of war." Volunteers will work as teachers, engineers, surveyors, health technicians and in agricultural and cooperative assignments.

Traditionally known as the "paradise of the Pacific," Micronesia became a United Nations Trust Territory under U. S. administration in 1947. It consists of 2,141 islands and atolls, but only 97 of them are inhabited, by a total of 88,000 people. The islands are scattered over three million square miles of the Western Pacific, from the International Date Line to within 300 miles of the Philippines and 700 miles of the Japanese mainland.

Here, Volunteers will find understaffed schools, bad roads, insufficient medical facilities, inadequate water and sanitary systems--and some of the warmest, most hospitable people in the world, as documented by the writings of James Michener, Joseph Conrad, Somerset Maugham and Robert Dean Frisbie.

Peace Corps Director Jack Vaughn called the Micronesian program "the greatest challenge in the history of the Peace Corps." He said that "liberal arts majors will be the backbone of this program. Most of the skills needed will be provided in the three months of training."

The group scheduled to begin training in July will be made up of persons qualifying as elementary school teachers and public health and public works Volunteers. Secondary school teachers, agricultural and cooperative specialists and public administrators will begin training in October.

Peace Corps Volunteers usually serve for two years, including three months of training.

use the facilities if they pay regular rates, plus a 20 percent surcharge. The Church also paid for the water meter, line and installation costs.

The city of Canyon is not to be responsible for low water pressure and reserved the right to inspect camp water lines at any time.

An agreement signed by the city also contains a special provision regarding annexation of the camp area at some future date.

The camp, which will cost upwards of $750,000 by the time it is completed, will be located on a 32 acre site donated by Mr. and Mrs. Tol Ware and Mr. and Mrs. Stanley Blackburn of Amarillo.

Future plans call for development of a two or three-acre lake and construction of a dormitory with suites for use by families. Also to be included at a later date will be three or four dormitories, a swimming pool and chapel.

In other business, the commission approved the third reading of the codification of ordinances and the ordinances themselves, for the city. The ordinances, said Gary Gwyn, city manager, had been studied by a legal firm and were revised to allow for simplication of certain points and to organize Canyon's rules and regulations. He said that little was changed from the existing ordinances.

Commissioners also agreed to sell a trash collection truck and forty steel trash boxes to the city of Friona for $15,000.

Canyon had recently purchased a new garbage collection device and 79 trash containers for better than $36,000.

Commissioners agreed to pay 1 percent of the $15,000 to Friona after a two month waiting period after July 10, 1966.

Gwyn said the stipulation was to assure Friona that the boxes would be available for them in the near future. Canyon will receive its new equipment about July 15, he said.

The commission also agreed to extend for another year the contract of Bledsoe and Caldwell of Amarillo for city paving.

Gwyn said their work had been satisfactory and that their prices were reasonable.

Mayor Paul Lindsey also signed a proclamation designating June 6-11 as Clean-Up, Fix-Up, Paint-Up Week for the city.

The proclamation reads, "the benefits realized by the general public as a result of cleaning, repairing and painting are beneficial, be it resolved that every citizen of the city be urged to observe this week."

Commissioners agreed to allow Gwyn and Johnny Janak, city clerk, to attend the Texas City Managers Association meeting in McAllen June 12-14.

Also approved at the meeting were holidays for the remainder of the year.

Those holidays are Memorial Day, May 30; Independence Day, July 4; Labor Day, Sept. 5; Thanksgiving, Nov. 24; Christmas, Dec. 26; and New Years Day, Jan. 2, 1966.

Band Club Collects Funds

The Canyon Band Parents' Club collected a total of $195 in its Canyon News subscription drive, said Raymond Raillard, president of the organization.

"We feel this two-hour drive was very successful in raising nearly $200 and wish to thank the Canyon citizenry for its cooperation and Mr. Troy Martin, publisher, for the opportunity," he said.

Raillard said the club planned to make the subscription drive an annual affair. Funds from the drive will go for band-sponsored events and extra-curricula activities of the band members.

A total of 95 new subscriptions and 168 renewals were collected.

Other officers of the organization include Wayne Wirt, vice-president; Roland Johnson, secretary and John Green, treasurer.

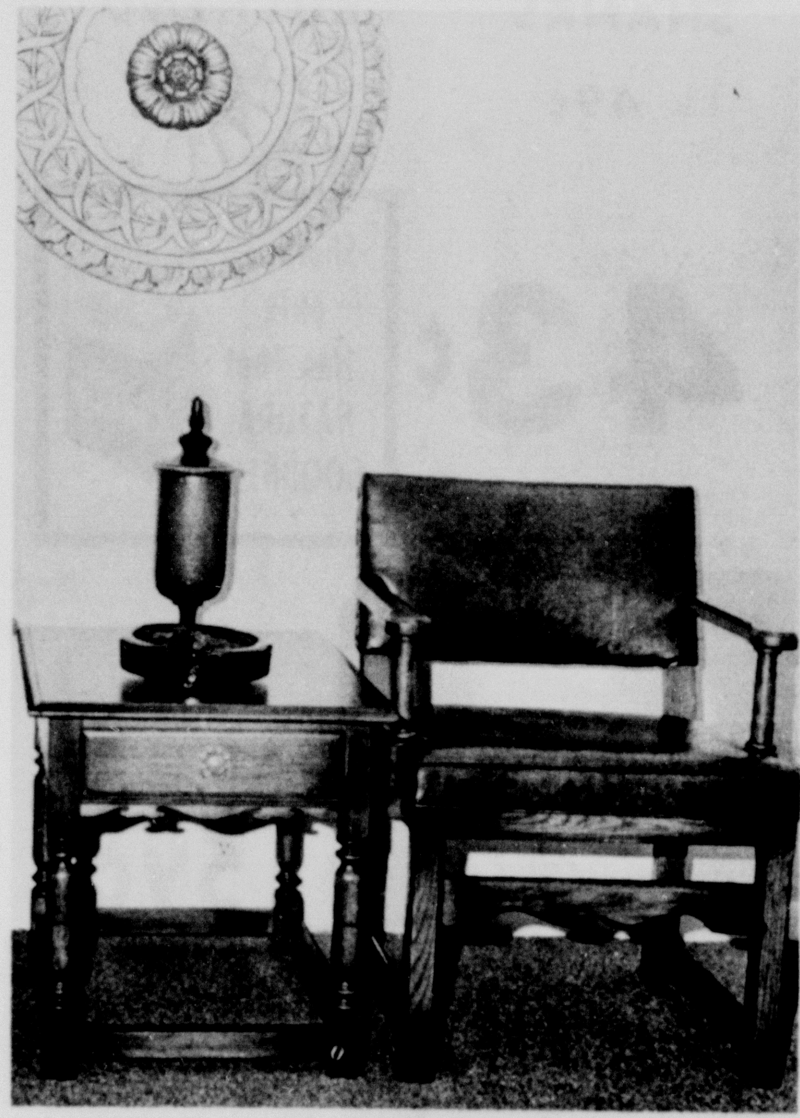
Professional Building Sets Trend In Decorating

THE DESIGN carved into this Westminister buffet of solid oak is called Linenfold....a Gothic treatment representing folds of linen. Abundant in Northern Europe during the 14th, 15th, and 16th centuries, it also survived during the Tudor, Elizabethan and Jacobean periods. It is complemented by a Farthingale side chair. The hanging lamp of black wrought iron features a shade of blown amber glass. A painting of DaVinci, framed in gold leaf, completes the setting.

A KEATS KNEEHOLE desk in antiqued distressed finish is focal point in the office of Dr. Burwell Southern. The desk is made of oak, the wood most frequently used by countryside craftsmen. As in other pieces in the Cotswold Collection, it remains true to tradition with sturdy simple design of English craftsmen with the Gothic influences of Italy, Spain, France, and the Low Countries. This setting is complemented by Farthingale side and arm chairs. The Spanish influence is emphasized with a painting of the bullfight arena.

Continental Influence Is Shown In Office



A GAWSWORTH TABLE in antiqued Cotswold oak accented by pieces of Spanish glass in shades of green. Complemented by Farthingale arm chairs, this setting is completed by a gold plaque hanging in traditional design on walls of antique white.

The recently opened Professional Building is a showcase for the modern trend in office decor...the office of Dr. Burwell Southern being a case in point.

A far cry from the old fashioned interiors of porcelain and stainless steel, the visitor to the office is greeted by warm wood tones of oak furniture finished in the distressed style of antiques.

In a setting of antique white walls and senna spice carpeting, reproductions of English Countryside Oak show the definite influence of the European Continent.

The furniture of early England was imported from Italy, Spain, France and the Low Countries and in time caught the eye of the local woodworkers in the English countryside. The pieces used from the Cotswold collection by Conant Ball are of essentially European design and are crafted in antiqued oak.

Accent pieces are in greens, gold and orange and pewter and wood paneling is stained to match the furniture finish.

Interior design was executed by Mrs. Southern, who is a decorator with Southern Furniture in Amarillo.

Dr. Southern, a graduate of Amarillo High School, attended Amarillo College and Texas Technological College. He is a graduate of Northern Illinois College of Optometry.

Following two years in the Air Force, he began practice in Amarillo and in 1953 came to Canyon on a two-day per week schedule.

In February 1963, the Southerns moved to Canyon for full-time practice in this city.

Dr. and Mrs. Southern have two children, Butch Kelly and Mrs. Dan Rhode of Amarillo, and one grandson, Shannon Rhode, 17 months old. The Southerns reside at 2623 11th Ave.

DR. BURWELL SOUTHERN

A GLOCHESTER table of antiqued oak in the Cotswold collection is flanked by Farthingale arm and side chairs. Focal point in this furniture arrangement is an antique lamp in tones of gold, green and reddish-orange. The floral arrangment in brass container picks up the green, yellow and orange accent colors.

CHS Ballot Lists Campaign Slate

A political assembly complete with campaign speeches, posters and rallies was conducted Monday at Canyon High School.

"The assembly is to select all students who hold elected posts for next fall," according to Hobart McDonald.

Class presidential posts were unopposed in the sophomore, junior and senior class elections. Running for the presidency of the classes were Gene Myers, sophomore; Robert Olson, junior; and Tommy Thompson, senior.

Among the most hotly contested race was the bid by 50 students for Student Council representatives. Final results of the election were to be tablated late Wednesday following day-long elections at the school.

Other candidates for senior class offices were Kathy Hufnagle and Jack Swatzell for vice-president; Susan Brantley for secretary; Becki Lassiter for treasurer; and Donna Crisp and Jon Lair for reporter.

Seniors seeking the Student Council positions of president are Joe Moore and Sherman Smith. Vying for vice-president of the Student Council were Lorraine Taylor, Sheila Daugherty and Neal Hughes.

Some 20 seniors are seeking the representative positions on the Student Council. "The pay during the training has been increased from $375 to $400 per month and upon graduation increased to $468 or $484, depending upon the branch of service to which the patrolman is assigned," the Sergeant stated.

Applications and information can be obtained by contacting any Department of Public Safety patrolman or office. June 6 is the deadline for accepting applications for the examination to qualify men for the August 9 training school.

Congressman Proposes Amendment

Congressman Walter Rogers, chairman of the house subcommittee on irrigation and reclammation, said today they would offer an amendment to lower Colorado River Basin Project legislation to include West Texas in studies to be made of future water requirements in west and southwest.

Congressman Rogers, who is presiding as lower Colorado project hearings continued said "Water-short areas must think now about the future and conserve all possible means to alleviate problems including the importation of water from water surplus areas elsewhere in the United States and adjoining foreign countries.

"There is simply not enough room for all of us to live on the banks of a creek, but all must have water."

Congressman Rogers said that state responsibilities "cannot be avoided simply because the federal government is willing to help" adding that the "Texas Panhandle and High-Plains should be included in the Texas State Water plan."

Survey Of Livestock To Be Made

Postmaster Marion Higdon reminds rural patrons of the Canyon Post Office to be on the lookout for June Livestock Survey cards. Next week, mail carriers will leave cards in a sample of boxes along their routes.

"USDA bases livestock and poultry estimates on replies to this survey," Higdon explains. "It is important for everyone who gets a card to fill it out and return it to the carrier. This way, USDA gets a representative sample of the area's livestock and poultry holdings.

Carriers assisting with the survey are Bill Digan Route 1 and O.B. Redman Route 2.

Survey cards will be forwarded to Cary D. Palmer, State Agricultural Statistician, in Austin. After adding and analyzing these cards, USDA statisticians are able to estimate the State's milk production, calf and pig crops, lamb and wool crops, and the number of hens and pullets.

Information from this survey will guide livestock and poultry producers in making important business decisions," Higdon concludes.

FM Road Program Approved

The Texas Highway Commission today approved the expenditure of $150,000 for construction of new Farm to Market Road mileage in Armstrong and Randall Counties as part of the 1966 FM Road Program, announced District Engineer Chili Smith of Amarillo.

The District Engineer said 7.0 miles of new construction in the two counties will be involved. The work will be under the supervision of W. V. York of Canyon, Supervising Resident Engineer. This project consists of the construction of grading, structures, and surfacing from the end of FM 1258, 15.0 miles west of FM 284, West and North to the south end of FM 2394.

According to Smith, in addition to this new construction, the Highway Department will assume maintenance of 5.0 miles of paved road in Randall County. This section extends from FM 1714, 3.1 miles West of US 87, South to the end of FM 1705.

The work authorized for this county is part of a 903.8-mile state-wide farm-to-market road-building program for 1966 as approved today by the Texas Highway Commission.

The Commission action raises to more than 38,200 miles the State's designated FM System -- roads approved for construction or already completed. Projections call for an ultimate 50,000-mile system.

The 1966 program proposed improvements on 904 miles of FM roads at an estimated cost of approximately $23 million.

Of the roads added by the new program, 75 per cent are school bus routes and 66 per cent are mail routes.
